ABOUT US

FDT (Find Digital Tec) Electronics Trading L.L.C. was born in Dubai, a beacon of innovation with a vision to illuminate lives through cutting-edge smart home solutions. In the vibrant EMEA region, we've crafted a strong presence, reaching new heights with unwavering commitment to excellence.

Our journey has just begun, and like stars exploring new skies, we yearn to ignite a global spark, transcending borders with boundless growth aspirations. We venture not just to conquer markets but to create lasting impacts, enriching lives and connecting people with innovation.

With the visionary leadership of founder Eng. **Ahmed AlShami**, we stand together, united and brave, ready to embrace new frontiers, transforming challenges into steppingstones of success. Our mission reaches far beyond mere profits; it is to empower individuals, businesses, and communities with the transformative power of cutting-edge technology.

Come, be a part of this extraordinary expedition, where dreams and unwavering determination unite to shape a world brilliantly illuminated by the pioneering spirit of FDT Electronics Trading L.L.C.

OUR VALUES

MISSION & VISION

At the crossroads of innovation and European perfectionism, we embark on a mission to revolutionize Gulf Region Business with an unwavering commitment to quality service.

Our relentless pursuit of excellence drives us to provide top-notch products at fiercely competitive prices, ensuring the utmost satisfaction of our clients. With a passion for creating and retaining lifelong partnerships, we pledge to set new standards and redefine success in the realm of business.

With unwavering trust, we stand by our commitment to excellence, consistently delivering superb services, competitive pricing, and unparalleled attention to detail. Our final production line surpasses all expectations, tailored to match each client's unique vision and customization inquiries.

INTEGRITY

COMPETITIVE EDGE

At the heart of our thriving business lies the fusion of cutting-edge technology and a team of qualified, experienced, and customer-centric service personnel. With an unwavering commitment to customer satisfaction, we build our foundation on these unshakable cornerstones, ensuring excellence in every endeavor we undertake.

PRODUCTS

The logo for UNA Automation features the letters 'UNA' in a stylized, bold, green font. The 'U' and 'N' are connected, and the 'A' is also connected to the 'N'. The letters are set against a dark blue background. Below the 'UNA' logo, the word 'AUTOMATION' is written in a green, sans-serif, all-caps font.

UNA AUTOMATION

The pioneer of home automation, offering a complete array of functions and accessories right from the start. No gradual implementations or costly interventions here; we provide immediate access to lights, blinds, consumption tracking, temperature control, heating, access control, irrigation, seamless integration with IP cameras, and anti-intrusion features. Embrace the future of home automation, where convenience and efficiency converge effortlessly at your fingertips.

WIRED SYSTEM

BOARDS & COMPONENTS

EVA POWER MULTI-PURPOSE IN/OUT BOARD

TOSCA 2 10" TOUCHSCREEN

Discover the expansive realm of Master boards, encompassing multi-purpose and specific models designed to cater to diverse needs. From centralized control panels with large-scale systems to micro-boards ideal for open systems positioned in junction boxes, we offer solutions to fit every requirement. Seamlessly combining the right boards and solutions, the UNA Automation system transforms to perfectly adapt and cater to any system, unlocking limitless possibilities for a truly tailored experience.

MASTER

HOME AUTOMATION, BMS & IT SOLUTIONS

Established in 1982, Master Divisione Elettrica swiftly rose to prominence as a leading electrical equipment manufacturer in the Italian market. In 2009, the game-changing UNA was born—an innovative smart-home system that revolutionized traditional home automation. Now, your home thinks just as you do, empowering you to craft personalized scenarios to suit your needs and routines effortlessly. With a simple touch, imagine all the lights turning off, shutters gracefully descending, while your IP Cams and Anti-intrusion system activate, ensuring peace of mind as you leave your home. Welcome to the future of HOME AUTOMATION, BMS&IT SOLUTIONS ELECTRICAL.

FEATURES

From Indoor & Outdoor**

**Compatible on Apple,
Android and Windows**

Experience the unparalleled power of UNA, where a single action empowers you to control, manage, and safeguard every inch of your space.

UNA breathes life into your home, an agile and customizable system that evolves and grows alongside you. Seamlessly expandable and modifiable, UNA adapts to your changing needs, ensuring your living experience is ever-evolving, just like you.

Embrace the freedom to shape your home automation journey with UNA, where possibilities know no bounds.

MASTER

BRITISH STANDARD

When the unparalleled expertise of Master converges with the distinctive requirements of each country, the result is a technical innovation that sets them leagues apart from the competition. Introducing the new BS System by Master, a culmination of years of experience and technological prowess, unveiled through sleek and contemporary design lines, adorned with two exquisite plate finishes in metal, glass, or plastic. Embodying the hallmark of Master's high quality and effortless installation, this offering now graces the British standard markets, promising an extraordinary experience in true Italian style.

WIRE DEVICES

MIX PLATES

With their sharp but essential design, these plates and their simple yet influential shapes sit perfectly in even the most complex of settings.

VETRA PLATES

The solidity and strength of metal and the pure elegance of glass blend with simple yet sophisticated design to create a series of superb plates.
